

mylva

2026 PEST MANAGEMENT SOLUTIONS

EUROPEAN COMPANY
ATTENDING MORE THAN
30 COUNTRIES WORLDWIDE
CURRENTLY IN **5 CONTINENTS**

WE OWN
REGISTRATIONS
AROUND THE WORLD

WE HAVE OUTSTANDING
MANUFACTURING FACILITIES

STRONG REGULATORY EXPERTISE

Operating at the forefront of a constantly evolving regulatory landscape, **MYLVA** is committed to staying ahead.

All our products are fully registered under the **Biocidal Products Regulation** (BPR), meeting the strict requirements across Europe. With registrations already secured in most EU countries and beyond, we deliver solutions you can trust - fully compliant, reliable, and ready for your market.

AT THE CORE OF OUR RESEARCH & DEVELOPMENT DNA

We turn ideas into reality, helping you bring targeted solutions to your market. Backed by a strong R&D team, we address emerging challenges with forward-thinking innovation to build a better tomorrow.

We deliver tailor-made solutions designed to meet the specific needs of your market and Customers.

EXPERIENCE VALIDATED BY INTERNATIONAL STANDARDS

With over **30 years of expertise** rooted in the professional pest control industry, **MYLVA** has grown alongside **Pest Management Professionals** (PMP's), learning, refining, and innovating every step of the way. This hands-on experience allows us to offer high-performance solutions that deliver proven, effective results in real-world conditions.

Our European know-how is backed by environmentally responsible manufacturing processes, combining deep technical expertise with patented designs and continuous innovation. The result: premium-quality products that set industry standards.

Further reinforcing our commitment to sustainability, **MYLVA** is certified under **ISO 14064**, the international standard for greenhouse gas reporting. This certification ensures transparency, accountability, and measurable environmental responsibility, because performance today must also protect tomorrow.

THE COMPANY

MYLVA was founded in 1989. It is a family business raised in the heart of Barcelona that today develops, formulates & produces high quality biocidal products for Professional and Amateur Use.

Backed by deep expertise and cutting-edge technologies, we provide retail customers with easy-to-use solutions in sustainable packaging, whilst delivering professional performance and maximum efficiency in retail applications.

be green, be *mylva*

Strongly committed to sustainable solutions, **MYLVA** produces products with low environmental impact using sustainable materials. Less plastic for lower carbon footprint, Reusable solutions and 100% REcycled & Recyclable carton boxes, providing your customers with a conscious involvement.

MYLVA constantly strives to satisfy global demand and develop greener solutions with chemical free products, targeting domestic pests in a domestic environment, because we know that we only have one planet and we need to take care of it.

We produce a wide range of solutions to protect households, like insecticides, rodenticides, wood protection and **Green products** in our Facilities (a modern factory and 2 warehouses).

We are proud to present our innovative **MyXPERT line**.
